Bob,

We talked with the San Jacinto PRPs yesterday about the sampling plan – I expect that they will submit an extension request on the time for them to submit a draft workplan for our review, although I don't have anything on that yet. They are also considering some proposals for sampling scope changes & I expect that we will see that in the draft plan if not sooner.

Will keep you posted.

Gary,
Just following up...Do the PRP's still need to talk about the proposed sampling plan? Or have you all resolved the technical issues???

Thanks, Bob

The PRPs have asked for a technical call to discuss the future San Jacinto sampling – I don't have a time yet but perhaps next Thursday or Friday – please let me know your availability next week for this call.

Thanks,
